

Stambh fence posts are the ideal solution for those who are looking for durable fencing for their land.

Stambh fence posts are rust-proof and easy to install in all types of terrain, in combination with barbed wires, chain-link, knotted wires or any other kind of fencing provisions.

Stambh, from the Tata International Product range, adheres to the high quality standards that are a hallmark of the brand.

Stambh resonates the same trust, reliability and durability of every product that has been produced by the brand.

Unique aerodynamic Y-fin design to give strength and life to the fence, and an arrow-head design at the end that makes grouting easier.

Customisable for length, holes pattern and thickness, and available in vibrant colour options.

Bitumen-coated or galvanised, to ensure maximum strength, durability, and longevity.

Made of high-quality steel, which fetches high scrap value, reducing the lifetime cost.

Stambh fence posts are designed and tested for endurance, to provide a lifetime of protection even in the harshest of conditions.

Stambh fence posts protect today  
**for a better tomorrow.**
